Yes, no problem from the lab end as long as it's no problem from the billing end.

Sure – we can do a sample here or there from an admin perspective, Linda?

Hi Ann,

I do not believe any additional samples will be coming up, nor do we anticipate continuing this project. While this work was of significant interest for a number of years, difficulty in putting the results into context from a water treatment perspective has made this information not as useful recently.

However, I am wondering if it might be possible to submit a few samples to you as the need might arise in the future? Is this something you can accommodate? We would need to work out billing/payment logistics, but I see it more likely that we may periodically have specific samples we would like to have analyzed, rather than an on-going contract.

Let me know, and thanks for all the hard work your lab has completed for this project!

Betsy

Hi Betsy,

Our contract is up on 7/8/08. Could you please let us know if we should anticipate any samples prior to that date? Also, are you re-bidding? Interested in extending the contract?
